Data Engineer Trainee with experience in building scalable data pipelines and analytics systems using PySpark, Hadoop, and Azure Databricks. Worked on OTT and Marketing & Customer Intelligence projects, developing ETL pipelines, marketing performance analytics (ROI, CAC, conversions), and customer lifetime value models using RFM segmentation. Built interactive Power BI dashboards for real-time insights and decision-making. Skilled in Python and cloud data engineering tools, seeking roles focused on scalable data solutions and business impact.

Skills

Languages: Python, SQL | **Data Engineering:** Databricks, Pyspark, Hadoop | **Visualization:** Power BI, Matplotlib | **Others:** NumPy, Pandas, Linux.

EXPERIENCE

UST GLOBAL – DATA ENGINEER TRAINEE (DEC 2025 – APRIL 2026)

- Designed and developed scalable ETL pipelines using PySpark and Azure Databricks to process large-scale structured and unstructured data.
- Built and optimized data transformation workflows for efficient data processing across distributed systems.
- Developed OTT analytics pipelines to analyze user engagement, content consumption patterns, and subscription behavior.
- Ensured efficient handling of high volume data using Hadoop ecosystem tools and cloud-based Azure services.

Projects

OTT Data Engineering Projects

- Developed scalable ETL and data integration solutions to unify complex datasets.
- Enabling advanced analytics for OTT user engagement insights.

Marketing Performance Dashboard

- Built a marketing dashboard analyzing ROI, CAC, and conversion funnels across channels.
- Visualized campaign performance trends and identified cost-effective acquisition strategies.
- Delivered insights to optimize marketing expenses and improve conversion efficiency.

Customer Lifetime Value

- Conducted RFM analysis to segment customers based on purchasing behavior.
- Identified high-value customer cohorts and key drivers of customer lifetime value.
- Analyzed transaction data to uncover trends in retention, frequency, and revenue contribution.

EDUCATION

Sathyabama Institute of Science and Technology

APR 2025

- Bachelor of Engineering (B.E) in Computer Science and Engineering | CGPA: 8.3/10.00

CERTIFICATION

Redhat Certified System Administrator (Certificate Id: 230-163-412)
